

YOUR CHARITY YOUR HELP

RMHC originated in the USA 40 years ago.
In Poland we have been helping families since 2002, free of charge.

NO to Cancer in Children

As a parent or grandparent, you will have heard of the ultrasound screening program „NO to Cancer in Children” and „NO to Cancer in Children – Parent, notice the symptoms” lectures

KEEPING FAMILIES CLOSE™

RMHC is present in children's hospitals, where it runs **Ronald McDonald Family Rooms Program**. Family Rooms help families of little patients at Children's Memorial Hospital in Międzyzlesie and Warsaw Medical University Children's Hospital – the first hospital in Poland where no parent is forced to sleep on the floor.

Ronald McDonald House is a unique program. The first House in Poland was opened in October 2015 next to University Children's Hospital in Kraków-Prokocim. A home away from home during a child's illness gives the families some safety and comfort at a challenging time in their lives.
